Based on the classic lecture series, Troward's Edinburgh Lectures have inspired nearly every other early New Thought writer. Judge Thomas Troward delivered them in Scotland in 1908 and they have served as the touchstone for metaphysical thinking to this day. Troward's mind is logical, brilliant and extremely precise. This class is excellent for the serious student of New Thought. This class is required for first Practitioner licensing.

***Change Your Thinking – Change Your Life!***  
***3<sup>rd</sup> Quarter Classes Are Beginning!***

Make a commitment to personal growth and spiritual learning by joining one of our Science of Mind (SOM®) courses. The basic principles we study are profound and the classroom is where we experience the practical application of principle. The process of regular class attendance is how we begin to embody a true change in our consciousness. In classes you will find a new perspective—in a timeless message that is totally relevant for today. The support of shared insights and the opportunity to ask questions in a classroom setting offer a learning environment not easily duplicated with solitary study. The discipline of regular attendance and the weekly readings create a framework for asking the big questions about life and our place in it.
